

Are there resources that you may find helpful to your ministry?

Sundays and Seasons

So far we are figuring it out.

None that I can think of right now

We are well resourced. Thanks!

Not sure what is meant

Suggest the Synod arrange for clergy to become a priority with Essentia or St Lukes to receive Covid -19 vaccine. Could do the with Catholic and Episcopal dioceses. We are on the front lines.

This question is too open-ended for me to answer properly.

Class on best practices and how-to for using FaceBook, You tube, etc., both in terms of here's how to post and also here's best practices for doing a video (sound, lighting, etc.)

No. I'm teched out.

yes

worshipping at home. Especially for services like Ash Wednesday and during Holy Week. Also, tips and tricks we can use to encourage at home worshippers.

None at this time

Maybe, but I can't think of what at this time.

Can't think of any of it.

not share the same availability as even towns and worship communities 20 or 30 miles away. It is unrealistic in these aging communities to expect them to adapt in the same way as the larger congregations but they are no less

be more limited in what can be done in person (whenever that happens) would be greatly appreciated! We definitely perceive a lessening in the 'quality' of the 'product' we've been able to create at that point, but obviously to being in a better place as far as access to vaccines. Let's not kill off each other now. Also- strong messaging about masks as a way to love your neighbor. Encouragement for a strong last push to get to a better place.

NA

A sabbatical? Or a good whiskey? :-)

None copyrighted music.

Time. Childcare. More video editing skills

Not at this time.
